Trump and the Zionists have declared victory, and Hamas has capitulated. But Israel keeps killing. The imperialist pressure to celebrate this "peace" and get Hamas to disarm is intense. Pro-Palestine forces need to regroup and fight against this. We need to fuse the defense of Palestine to the defense of the working class from attacks led by Trump. This requires a split from the disastrous path of courting the Democrats, looking to liberal bodies like the U.N., and conciliating the trade union leaders, who all serve to preserve U.S. imperialism. Come hear the Spartacists lay out a program for independent working-class struggle.
